

Systematic reviews in animal research: Launch of the CAMARADES-NC3Rs Systematic Review Facility (SyRF)

30 March 2017

Central London

Draft Agenda

12.30 – 13.30	Registration and lunch
13.30 – 13.40	Welcome and introduction Chair: Professor Dominic Wells, Royal Veterinary College
13.40 – 14.10	Broad introduction to systematic reviews, the main steps included, and the CAMARADES-NC3Rs Systematic Review Facility (SyRF) Professor Malcolm Macleod, University of Edinburgh
14.10 – 14.30	Why are systematic reviews important for good science and the 3Rs? Dr Emily Sena, University of Edinburgh
14.30 – 14.50	The role of systematic reviews in improving the internal validity and reporting quality of animal research Dr Nathalie Percie du Sert, NC3Rs
14.50 – 15.10	An industry perspective on the utility of systematic reviews Dr Thomas Steckler, Janssen
15.10 – 15.30	Coffee
15.30 – 15.45	Keep calm and review on: successes and challenges in preclinical systematic reviews Kim Wever, SYRCLE
15.45– 16.00	Camaraderie: oiling the pathway to human studies in stroke Mary Jo Macleod, University of Aberdeen
16.00 – 16.20	Can text mining and machine learning methods improve the efficiency and longevity of pre-clinical systematic reviews? A SLIM overview Professor Andrew Rice, Imperial College London
16.20 – 16.40	Demonstration of the CAMARADES-NC3Rs Systematic Review Facility (SyRF) Dr Gillian Currie, University of Edinburgh
16.40 – 16.50	Closing remarks Chair: Professor Dominic Wells, Royal Veterinary College
16.50 – 18.00	Networking
